War Child

Improved financial processes contribute to the mission

War Child works toward a world in which no child's life is torn apart by war. It is committed to supporting the millions of children impacted by armed conflict to overcome their experiences, develop to their full potential, and contribute to a peaceful future.

INFO

INDUSTRY: Nonprofit

SIZE: 450 associates

LOCATION: International, HQ in Netherlands

PRODUCT: Unit4 Enterprise Resource Planning (ERP) - Cloud

The Challenge

As an international nonprofit with an ambitious mission, War Child is dependent on donors to be able to deliver services to children. It was looking to improve management's insight into global steering information, and efficient compliance with donor reporting requirements, which grow more and more complex.

How did Unit4 help?

- One system, capturing information real-time from projects around the world.
- Highly flexible reporting.
- Automation and workflow.
- Cloud operations to manage the system and infrastructure.
- Support by knowledgeable consultants.

Achievements

Easy reporting for complex demands
All program data – funding, grants, commitments, obligations – available live, with a touch of a button.

Anytime, anywhere
Automation removes manual intervention and the need to be onsite. People traveling around the world do authorizations on the fly.

Simplified system operations
Being on the cloud takes headaches, worry and resources out of managing the system.

> "When we met the people at Unit4 we were impressed by their true understanding of the sector. We were convinced they would be able to help us get this very complex implementation done successfully."
>
> **Fiona Buruma,** Director of Finance and Operations

Impacts

20%

Time saving for reporting in one year with a target of 50% in two years

Better utilization of funds to support the mission

Worry-free back-up, updates and security
