- Planning, Analysis Reporting, and Dashboards

Why Unit4 for Higher Education?

- **Specialist knowledge of the higher education sector** – we understand your challenges. Unit4 has aligned solutions and implementation to give you the functionality, agility, and efficiency you need.
- **Fast time to value** – we bring the expertise in higher education business process requirements to help you deliver a faster, more impactful time to value and a reduced-risk implementation process, so that benefits are realised quicker.
- **Reduced total cost of ownership** – a modern cloud platform saves IT support costs, is quick to implement, and provides self-sustainable deployment.
- **Improved data integration** – benefit from the flexibility to integrate with multiple and changing technology stacks and best practice guidance to help you unify data and simplify compliance reporting.

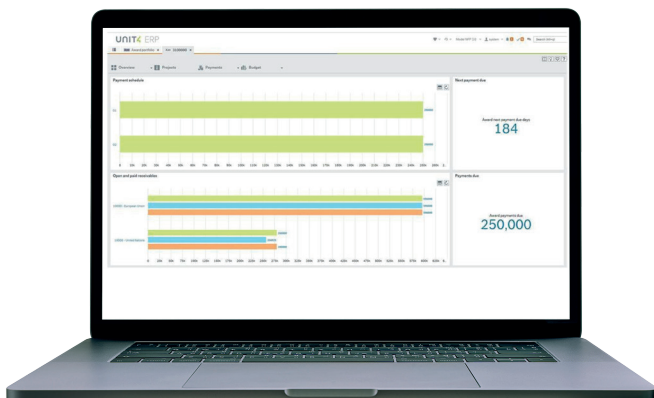

What's unique about our higher education focus?

Maximise available budget

- Automatically and accurately allocate indirect costs across multiple active projects.
- Integrate strategic budgeting across your organisation with persona and role-based access and workflow.
- Streamline and automate processes across finance and administration.
- Build flexible, responsive plans for multiple scenarios backed up by powerful performance analysis and integrated people planning.
- Leverage the higher education industry consulting expertise, training and integration to deploy best practice and help you deliver a faster time to value.

Build trust and accountability

- Access single source, up-to-date, trustworthy data whenever and wherever you need it.
- Ensure data is compliant and aligned to industry best practice.
- Automatically comply with regulations and standards to ease admin and increase trust.

Customer Impact

“Unit4 represents a great step forward for the university. It liberates our people by automating manual tasks. Decision making is faster, easier, and more accurate. And our processes are far more efficient now, too.”

Andrea Whiting, Kingston University

“We agreed that we didn’t want to use legacy systems like Oracle because of the horrific cost and maintenance issues. The beauty of installing these Unit4 solutions is that we can use our own internal implementation staff. We don’t have to hire or pay for the usual software vendor army of highly-priced, external ERP consultants”

Ian Sobbold, Director of Finance, Cranfield University
