Streamline financial processes, drive results

Unit4 provides a centralized system of record that consolidates all your data, enabling quicker, more informed decision-making powered by advanced analytics. By automating time-consuming manual tasks, ensuring accuracy, and providing advanced reporting capabilities, finance teams can shift their focus from data fatigue to high-value strategic analysis.

With Unit4, CFOs are equipped to deliver streamlined and efficient financial operations to their teams, which is vital to retain and grow a modern finance team and favor the end-user.

Advanced forecasting & risk management

Unit4's advanced forecasting tools take financial planning to a whole new level. By leveraging historical data and predictive analytics, your team can uncover trends, anticipate risks, and craft dynamic, forward-looking strategies.

Whether you're planning resource allocation or preparing for market uncertainties, Unit4 empowers you to stay ahead of the curve by preparing the entire organization with confidence and clarity.

Collaborative tools for high-performing finance teams

Integration and collaboration are at the heart of Unit4's solutions. Designed with secure data sharing and real-time communication features on the Microsoft Azure Cloud platform, our platform enhances teamwork across finance functions.

Teams can collaborate seamlessly on shared data, breaking down silos and aligning everyone by using consistent data. This increases efficiency and reduces errors, ensuring your organization operates with unparalleled precision.

Key feature highlight: advanced forecasting tools

Unit4's **powerful forecasting and scenario planning** capabilities can help forecast future performance, identify emerging risks, and model "what-if" scenarios with unparalleled precision. By making data-driven predictions, your financial team can confidently steer your organization toward better outcomes—all while saving time and resources that would otherwise be spent crunching numbers.

Why choose Unit4?

Unit4 helps CFOs and finance teams go beyond the numbers—empowering them with tools to deliver efficiency, compliance, and strategic insight, as well as:

- **Enhanced decision-making:** Unit4 provides CFOs with total visibility, strengthening both day-to-day decisions and long-term strategies.
- **Automated workflows:** Reduce manual work and reduce human errors with automation, saving valuable time and freeing teams to do what matters most.
- **Regulatory confidence:** Ensure your financial records meet compliance standards with built-in audit trails and controls.
- **Collaboration made simple:** Facilitate secure data sharing across teams, fostering greater collaboration and efficiency.
- **A single source of truth:** Finance teams can be gifted all the data they need at their fingertips, with

confidence that it is accurate and up to date. With integrated data, financial performance understanding isn't isolated, but takes into account all financial data – across HR, projects, procurement, and more.

Example ROI Unit4 customers receive:

2.5 months of effort saved annually in FP&A processes

33% efficiency gain in budgeting and forecasting process

100 Excel files and **1 week of work**, changed to **30 minutes** and a few clicks

Transform your finance function

Unit4 is a proven **digital transformation partner** for the Office of the CFO. By reducing organizational silos, improving visibility, and automating manual processes, we empower finance teams to focus on what matters most—maximizing value and leading your organization with strategy.
