

Agile, change-ready local government transformation with Unit4 Cloud

Södertälje Kommun is a leading Swedish municipal authority, supporting more than 100,000 citizens. It provides a broad range of public services, ranging from education, social care, and utility services, to culture, leisure, and environmental conservation.

INFO

INDUSTRY: Local Government
SIZE: Supports population of >100,000 across 700km²
LOCATION: Södertälje, Sweden
PRODUCT: Unit4 Enterprise Resource Planning (ERP)

The Challenge

Södertälje faces unprecedented demand for its services in the face of budget uncertainties, the move to a hybrid workforce, and a legacy finance platform that couldn't adapt easily to change.

The existing finance platform struggled to support automation, digitization, and a more efficient way of working, for example. There were multiple manual checks and controls which absorbed resources, financial processes were non-standard and finance reporting was slow and labor-intensive, delaying the insights needed for decision making.

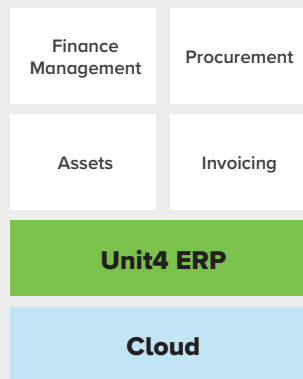

How did Unit4 help?

- Implemented Unit4 ERP 7.12 Nordic Cloud on time and on budget
- Adopted U4DM implementation methodology to ensure a rapid, low-risk, secure deployment
- Complete, connected finance model (including Core Finance,

Procurement, Assets, and Invoicing) frees Södertälje to focus on what matters most: helping citizens and the community thrive

- One data model, more than 65 API integrations with no risk of manual errors and reporting is significantly faster

Achievements

Agile, modern finance
 New API-powered systems connected rapidly and transaction times are faster.

Efficient, rewarding workplace
 Less time spent on manual tasks and controls — and more time on analysis and strategy.

Faster time-to-value
 Prebuilt Unit4 Municipal template minimizes customization, supports best practice processes, and streamlines training and adoption.

“Ultimately, Unit4 is empowering the community by increasing social value and freeing up greater investment in support of local initiatives.”

Anneli Lehtinen, Head of Accounting, Södertälje Kommun

Impacts

COLLABORATION

Finance becomes a strategic asset in decision making

CLOUD AGILITY

Deployed on time and on budget

EMPOWERMENT

Easier for everyone to follow protocol and do the right thing
